# SERVER Support

## TRUSTED SERVER BUILD & MAINTENANCE SUPPORT

When one or more of your servers crash, restoring your operating systems, applications, and IT infrastructure is your first priority. You must be able to reduce the risk of downtime and count on effective support for your server hardware maintenance, while still meeting your operational and budgetary goals. Custom server maintenance with Service Express' world-class third-party warranty service support coverage option can help save up to 70% from OEM costs.

Blade Servers

Edge Servers

Rack Servers

Tower Servers

High-Density Servers

Mission-critical Servers

You can do more without the limits of an OEM server maintenance service.

Extend the life of your equipment with server hardware maintenance that continues long after the warranty expires.

Reduce your costs by up to 30-70% and put the savings back into your IT budget.

Count on expert on-site technical support from your local Service Express field engineer for increased up-time.
